Explanation of significant increases in the budget:

The City of Badger has areas of new construction. This new area and the new residents need city services. To help keep our levy consistent at the \$8.10 limit, we need to capture the increase in taxable valuations to provide these services and to meet other increases in city expenses. Increase in Liability, Property & Self-Insurance costs are due to annual increases for insuring city property. Increase to FICA & IPERS/Other Employee Benefits are due to annual wage increases and annual increases in employee health insurance and workmans compensation insurance.

*Total city tax rate will also include voted general fund levy, debt service levy, and capital improvement reserve levy.

**Budget year effective property tax rate is the rate that would be assessed for these levies if the dollars requested is not changed in the coming budget year
